WCMU local program focuses on Type 2 Diabetes

“Your Health Matters – A WCMU Special: Second Opinion ‘Type 2 Diabetes’” will uncover information on local development to support people who suffer from diabetes. Nearly 30 million people have diabetes in the U. S. today while another 8.1 million people go undiagnosed. More than 70,000 deaths are attributed to diabetes annually, making it the sixth leading cause of death in America.

“Your Health Matters” opens with a national overview of diabetes followed by a discussion with local physicians who will provide medical information on how the disease can be improved through lifestyle changes and a doctor’s care.

Joining host Stefanie Mills are McLaren Central Michigan physicians Dr. S. Sethu Reddy, endocrinology specialist; and Michael McConnon, board certified in family medicine.

“Your Health Matters” will debut Sunday, May 21 at 4 p.m. on WCMU Public Television.
